Comment

Managing Director, Mr Jim Beyer commented: "Regis Resources has delivered another year of solid production for FY20 and in the process generated a record net profit after tax of \$200 million, a net profit after tax margin of 26% and operating cash flows of \$343 million. While delivering this record profit we also brought into production three new open pits and an underground mine. We have made significant investments to increase our mine life by way of the acquisition of nearby high potential land and stepping up our greenfields exploration efforts, while also progressing the significant and valuable McPhillamys Project.

With this solid performance we are pleased to again announce an 8 cent fully franked final dividend to bring the total dividends declared to 16 cents per share for 2020 for an impressive basic yield of 2.9% (or 4.1% grossed up)² and, notably, bring the total dividends declared over the past seven years to almost half a billion dollars. At Regis, we continue to build on our reputation for both production growth and consistent dividend returns".

1. Includes bullion on hand classified as inventory and valued as at 30 June 2020

2. Grossed up for 100% franking. Annualised dividend yield of 16cps at a closing share price of \$5.55 on 25 August 2020

The board of Regis Resources Limited is pleased to announce a strong full year net profit after tax of \$200 million for the year ended 30 June 2020.

As a result of the ongoing strong financial performance of the Company, the Board has declared the following fully franked final dividend:

- Dividend amount 8 cents per share fully franked
- Ex-dividend date 25 September 2020
- Record date 28 September 2020
- Dividend Reinvestment Plan Election Date 29 September 2020
- Payable date 16 October 2020

Regis has announced a Dividend Reinvestment Plan (DRP) which includes a 1% discount to the applicable 5-day volume weighted average price and allows existing shareholders to invest their dividends back into the Company with no fees, brokerage or other transaction costs on shares acquired under the DRP.

Details of the DRP along with the DRP rules have been released in a separate announcement today.

The full year dividend of a fully franked 16 cents per share represents a payout ratio of 11% of revenue and 21% of EBITDA³.

GUIDANCE FOR FY21

Regis is expecting a strong year of growth within the operations as production continues to lift in line with the targeted growth profile heading to 400,000oz pa from internal development options.

The FY21 key guidance elements are:

- | | |
|-------------------------------------|----------------------------|
| • Gold Production ⁵ | 355,000 - 380,000 ounces |
| • C1 Cash Costs including royalties | A\$1,030 - 1,090 per ounce |
| • All in Sustaining Cost | A\$1,230 - 1,300 per ounce |
| • Growth Capital ⁶ | A\$50 - 60 million |
| • Exploration | A\$35 million |
| • McPhillamys ⁷ | A\$15 million |

5. Production rate is planned to lift above historic annual rate in the second half of the year.

6. Growth Capital includes open pit and underground pre-production mining costs, site infrastructure and camp expansion costs

7. McPhillamys spend for FY21 is a minimum of A\$15m. Regis will assess additional early long lead items and in the case of early approval of the Company's Development Application by the Independent Planning Commission, the expenditure on McPhillamys for FY21 could be approximately A\$60m.
